

Swanbourne Parish Council meeting 7th September 2022

PC email addresses

When the new website was created over a year ago the PC had the option of moving over to a new email address – name@swanbourneparishcouncil . with councillors encouraged to adopt the new address.

Whilst some councillors are using the @swanbournepc as their main PC email address, others prefer an alternative. Some emails may be missed as a result.

The desired email address is used mainly by Jo T to send PC business to councillors. The PC website for residents etc. to contact individual councillors uses @swanbournepc for all.

The PC is asked to consider the following proposal:

Individuals decide which email address (@swanbournepc or otherwise) they wish to use for PC business and confirm with Jo. Councillors also confirm an email address to be used on the PC website; if preferred this could be our Clerk (if Jo is ok with that). It would seem that contact with individual councillors via the website is rare.
